

MAAMA KIT DISTRIBUTION PICTORIAL REPORT

The Health Centre in a bid to distributing Maama Kits to over 30 Mothers in the 3RD Quarter of operation made purchases of the Maama Kits on 1St August 2015 from P.A.C.E a medical organization that offers services in Antenatal and Family Planning services in Uganda. The Health Centre has distributed 15 Maama Kits to pregnant mothers alone in the month of August. Also in a bid to protecting pregnant mothers from diseases like Malaria, the Health Centre through the Tororo District Health Office has distributed over 28 Mosquito nets. The Antenatal numbers at the Health Centre is steadily increasing. Below are photos;
